

Business Transfer finds space in Europe

On the 8th of June 2011 a meeting of strategic importance took place at the European Commission Headquarters in Brussels. Its aim was to **reset the European agenda on the issue of Business Transfer**, with a clear mission: get closer to what happens "on the ground".

This opportunity for discussion was promoted by the Office of the Vice-President Antonio Tajani, who coordinated the meeting: a representative of **Eurochambres** (900 Chambers of Commerce), one for **UEAPME** (23 million small and micro enterprises), one for **Business Europe** (European Confederation of large industries), the delegates of the **SME Department**, of the **EU Ambassador** ("SME Envoy"), of the European Association on the topic ([TRANSEO](#)).

Toni Brunello was invited for a technical contribution as European expert on business transfer; this participation comes also from the premises launched in Budapest last May at the EU half-yearly Conference, during which the **European Good Practice "Phoenix"** (promoted by the Unioncamere del Veneto and [StudioCentroVeneto](#)) was officially presented.
